

10 Top Tips for Parents and Educators

EXAM-DAY READINESS

The lead-up to exams can be an emotionally challenging time. As the date approaches, nerves can become harder to manage. From nutrition to emotional support, this guide offers 10 practical strategies to reduce stress and enhance performance. Whether at home or in school, these tips encourage focus, resilience, and wellbeing – giving every student the best opportunity to approach exam day with clarity and self-belief.

1 FUEL THE BRAIN

Encourage students to eat a balanced breakfast and hydrate before exams. The brain is around 80% water, so even mild dehydration can reduce memory and concentration. Provide water, cereal bars, or fruit on exam day – especially helpful if anxiety affects appetite. A little fuel can go a long way towards better performance.

2 PROMOTE POSITIVE SELF-TALK

Support young people to challenge negative thoughts. Help them replace “I’m going to fail” with “I’ve worked hard; I can do this”. Positive affirmations boost confidence and reduce anxiety. Practise these together at home or in school settings.

3 PRACTISE RELAXATION TECHNIQUES

Encourage daily use of calming techniques, such as diaphragmatic breathing, guided muscle relaxation, or mindfulness. These techniques help regulate stress responses. Consider running short morning sessions before exams, or practising together at home to promote calm focus.

4 CREATE FAMILIAR COMFORT

Ensure a supportive adult is visible and available before exams. The calm presence of a parent or teacher can offer a sense of safety. Schools can provide ‘calm zones’; parents can support with consistent routines and reassuring conversation.

5 ENCOURAGE VERBAL EXPRESSION

Invite students to talk about their exam worries. Whether it’s a quick check-in with a teacher or chat with a parent, open conversations reduce emotional pressure. Active listening is often more powerful than immediate problem solving.

6 ORGANISE EXAM-DAY LOGISTICS

Prepare exam-day essentials in advance. Schools can coordinate staff to greet students and manage pre-exam spaces. Parents can prepare clothes, equipment and transport the night before to prevent stress.

got this!

7 BUILD A COPING TOOLKIT

Teach students simple ‘in-the-moment’ coping strategies. These include calm breathing, focusing on what they can control, and using grounding techniques. Practise these together so they become easy to recall under pressure.

8 EMBRACE A BALANCED ROUTINE

Reinforce healthy routines: regular sleep, nutritious meals, movement and time to unwind. Families and schools can support students by encouraging outdoor time, screen breaks and restful evenings before exams.

9 NORMALISE EXAM NERVES

Let students know that feeling anxious is normal and doesn’t mean they’re unprepared. Reassure them that a certain level of stress is natural – and can actually improve focus and performance when managed well. A calm, understanding tone – at home and at school – helps build confidence and resilience.

10 KEEP SPACES CALM

Reduce pressure in exam-day environments. Whether in the school common room or family kitchen, avoid last-minute cramming. Instead, use soft lighting, gentle music, and quiet time to support a composed mindset.
